Any statements herein describing or referring to documents and agreements are summaries only, and are **qualified in their entirety** by our reference to such governing documents posted to the *BGS Auction website*, www.bgs-auction.com:

- **The Board's Order in BPU Docket No. ER25040190 dated November 21, 2025**
- **BGS-CIEP and BGS-RSCP Auction Rules**
- **BGS-CIEP and BGS-RSCP Supplier Master Agreements**
- **Each EDC's Company-Specific Addendum, including draft tariff sheets and pricing factors**

THE PRESENTATION WILL COVER:

- Roles
- Overview of Board's Decision
- Highlights of the Supplier Master Agreement
- Timeline of the Auction Process
- BGS Websites
- Application Process
- Details of the Auction Rules
- Overview of the Bidding Procedure

ROLES

1. BOARD DECISION

REGULATORY PROCEEDING BEGAN IN APRIL 2025

- On **April 23, 2025**, the Board issued an Order soliciting from the EDCs and from other parties, proposals on how to procure supply for BGS customers in the state
- The EDCs filed a proposal for a statewide **BGS Auction Process**
- The regulatory proceeding included discovery, two rounds of written comments, and a legislative-type hearing
- The Board rendered its decision at its agenda meeting on **November 21, 2025**, and this decision is memorialized in the Board Order posted to the BGS Auction website

BOARD DECISION MAINTAINED BUILDING BLOCKS FROM PAST AUCTIONS

- Board approved the EDCs' Proposal
 - **Two Auctions:** one for large commercial and industrial customers ("BGS-**CIEP**") and one for residential and small commercial customers ("BGS-**RSCP**")
 - **BGS Product :**
 - Setting of capacity proxy prices and true-up mechanism for BGS-RSCP Product
 - **Single statewide process:** Offers for all BGS load (not already procured) solicited in one process
 - **Auction format is a clock auction:** Prices tick down as long as more tranches are bid than needed
 - **Supply periods:** one year for **CIEP** and three years for **RSCP**
 - **Board consideration of results:** within two business days of the close of the last auction

THE EDCs PROPOSED CAPACITY PROXY PRICES

- The Board has approved the use of capacity proxy prices since the 2020 BGS proceeding
- The BGS-RSCP Supplier is paid (or pays) the difference between the rate it pays for capacity and the capacity proxy price in that delivery year
- Based on current the PJM RPM schedule, the EDCs proposed to set **capacity proxy prices** for Delivery Years 2027/28 and 2028/29 and true up to the rate paid for capacity in each of these two Delivery Years
- If the actual capacity price(s) are known **at least 5 business days** prior to the start of the Auction, the capacity proxy price(s) will be voided

December 2025

2027/28 BRA expected opening date

June 2026

2028/29 BRA expected opening date

ADDITIONAL ITEMS FROM THE BOARD ORDER

- The Board approved the incorporation of the terms of the International Swaps and Derivatives Association, Inc. (“ISDA”) 2018 U.S. Resolution Stay Protocol (“Stay Protocol”) into the terms of the BGS Supplier Master Agreements
- The Board directed the EDCs to become adhering parties to the Stay Protocol and to incorporate the terms of the Stay Protocol into the SMAs by way of appendices
 - Under Appendix I to BGS-RSCP SMA and Appendix F to BGS-CIEP SMA, the EDCs and the winning BGS-RSCP and/or BGS-CIEP Supplier (and their Guarantor, if applicable) will confirm adherence to the Stay Protocol
 - Bidders who are NOT classified as Global Systemically Important Banks (“G-SIBs”), or who are not affiliates or subsidiaries of G-SIBs, would not execute Appendix I or Appendix F

GOVERNING DOCUMENTS POSTED AS THEY BECOME AVAILABLE

- Documents incorporating Board's decision will become the final and governing documents for the Auctions
- Governing documents are
 - The SMAs: BGS-CIEP Supplier Master Agreement and BGS-RSCP Supplier Master Agreement
 - The Auction Rules: Final BGS-CIEP Auction Rules and Final BGS-RSCP Auction Rules
 - Each EDC's Company-Specific Addendum
 - [Board Order](#) in Docket No. ER25040190
- **DISCLAIMER:** Any statements made in this presentation or during the webcast describing or referring to the governing documents are summaries only and are qualified in their entirety by our reference here to these documents

2. BGS PRODUCT – BGS SUPPLIER MASTER AGREEMENTS

FULL-REQUIREMENTS PRODUCT

- BGS Supplier **responsible for supplying** energy, capacity, ancillary services, and any other service that may be required for PJM to meet its share of the needs of BGS customers
- EDCs will be responsible for payment of **transmission-related costs** to PJM
- **Two agreements:** BGS-CIEP Supplier Master Agreement and BGS-RSCP Supplier Master Agreement
- Responsibilities of BGS-RSCP and BGS-CIEP Suppliers are the same, but payment terms are different
- BGS Supplier also responsible for meeting the Renewable Portfolio Standards

RPS REQUIREMENTS

- BGS Suppliers transfer RECs (Class I and Class II) and SRECs to the EDCs through a **Retail LSE Account** in PJM GATS
- The EDCs submit the required **annual compliance reports** on behalf of BGS-RSCP and BGS-CIEP Suppliers
- A supplier that does not meet these requirements must pay an **Alternative Compliance Payment**

BGS-RSCP AND BGS-CIEP

COMPLIANCE WITH RPS

- BGS Suppliers are responsible for fulfilling RPS during the supply period
 - Compliance with Class I and II requirements and solar must be demonstrated using **RECs** issued by PJM-EIS GATS
 - Suppliers must **register into GATS** and open a Retail LSE Account to be able to transfer RECs and SRECs to the EDCs
- TRECs and SREC-IIs are retired into the Administrator's GATS account and **reduce Class I requirements** on a 1-to-1 basis
 - TRECs and SREC-IIs do not count toward SREC requirements

SUPPLEMENTS SET CAPACITY PROXY PRICES

- Results of PJM Base Residual Auctions for the **2028/2029 Delivery Year** are not expected to be known prior to BGS-RSCP Auction. The table below provides the expected **Capacity Proxy Price** for the 2028/2029 Delivery Year based on EDCs' methodology and assuming no delay in PJM holding the 2027/2028 BRA:

EDC	2028/2029 (\$/MW-day)
All EDCs	2027/2028 BRA result

- The BRA for the 2027/2028 Delivery Year is scheduled to be held in December 2025¹
- BGS-RSCP Suppliers are paid/charged the **difference between the capacity price charged by PJM** in the 2028/2029 Delivery Year **and the Capacity Proxy Price**
- Rates** for customers will be adjusted for this true-up
- Separate line item** on supplier invoice during the 2028/2029 Delivery Year

1. The Board approved the EDCs' method for determining the Capacity Proxy Prices for the 2027/2028 and the 2028/2029 Delivery Years if there is a delay in the release of PJM's BRA results for the 2027/2028 Delivery Year. If such a delay occurs and the results of the BRA for the 2027/2028 Delivery Year are not known five business days prior to the BGS-RSCP Auction, the Capacity Proxy Prices for the 2027/2028 and 2028/2029 Delivery Years will be set to the 2026/2027 BRA result.

OVERVIEW OF CREDIT PROVISIONS

- **Article 6** of each SMA fully describes the creditworthiness standards and security required under the Agreements
- **BGS-CIEP** — Credit Exposure is \$70,000/tranche
- **BGS-RSCP** — Two separate requirements
 - Mark-to-Market requirement
 - Independent credit requirement is \$2.4M/tranche at beginning of supply period and declines over the term of the Agreement
- **Two separate credit lines**
 - One for (i) Mark-to-Market exposures under all BGS-RSCP SMAs held by supplier and (ii) BGS-CIEP credit exposure
 - Another for BGS-RSCP independent credit requirement

CHANGES POSSIBLE DURING THREE-YEAR PERIOD

BGS-RSCP Suppliers could be affected by changes such as:

- Rate design subject to annual review
- Changes to RPS and changes to the alternative compliance payment levels
- Changes to CIEP Line

NON-NEGOTIABLE STANDARD AGREEMENTS

- Agreements are **standard statewide** and are **approved by the Board**
- **Applicants must agree** to these standard contract terms to qualify to participate in the Auctions
- Also approved by the Board as part of the agreements are standard forms of credit instruments to post security during the supply period:
 - A standard form of guaranty
 - A standard form of letter of credit
- EDCs have **approved modifications to the Letter of Credit** that can be used on an optional basis

3. KEY ANNOUNCEMENTS OVERVIEW

ONE PROCESS, TWO AUCTIONS

- Auctions are separate but concurrent
- **BGS-CIEP Auction:** Larger commercial and industrial customers on hourly price plan
 - Auction determines a CIEP Price in \$/MW-day that suppliers are paid based on the capacity obligation
 - Suppliers are paid for energy at the real-time hourly spot price and are paid a pre-determined rate for ancillary services
 - Suppliers also paid the CIEP standby fee levied on all CIEP customers
- **BGS-RSCP Auction:** Residential and smaller commercial customers on a stable price
 - Auction determines all-in price in ¢/kWh
 - Suppliers are paid this price for every kWh of load served

CIEP VERSUS RSCP CUSTOMERS

EDC	All customers are CIEP	Customers at or over 500 kW are CIEP
PSE&G	HTS-HV, HTS-Sub, LPL-P	LPL-S
JCP&L	GP, GT	GS, GST
ACE	TGS	AGS-Primary, AGS-Secondary, MGS-Primary, MGS-Secondary
RECO	Service Classification No. 7	Service Classification No. 2

- Non-residential RSCP customers can opt in to CIEP
 - Customer must **notify the EDC** by **January 5, 2026**
- There are **no switching restrictions** so that all BGS customers are free to come and go from BGS provided that they give appropriate notice to the EDC
- **Switching Data** is available on the “monthly data” page of the BGS Auction website

BGS-CIEP AUCTION: TRANCHES AND PARAMETERS

- Announced on November 14, the **minimum starting price** is \$**800**/MW-day and the **maximum starting price** is \$**1,000**/MW-day

NEW JERSEY STATEWIDE BASIC GENERATION SERVICE ELECTRICITY SUPPLY AUCTION

AUCTION FORMAT IS A CLOCK AUCTION

- **Multi-product design**
 - Tranches for all EDCs are procured at once
- **Bidding proceeds in rounds**
 - Suppliers state how many tranches they want to supply at prices suggested by the Auction Manager
 - Prices tick down if there is excess supply
 - Suppliers could switch their bids from one EDC to another in a given Auction

BGS-RSCP

“Price” is in ¢/kWh

BGS-CIEP

“Price” is in \$/MW-day

AUCTION RESULTS SUBJECT TO BOARD APPROVAL

- **Board has two (2) business days from close of last auction to consider results**
 - Board may consider BGS-CIEP Auction results and BGS-RSCP Auction results at different times
- Results of each Auction are considered separately but in their entirety
 - It **is possible** that results of the BGS-RSCP Auction are approved while results of the BGS-CIEP Auction are not (or vice-versa)
 - However, the results are approved for all EDCs or for none so that it is **not possible** for results to be approved for one EDC but not the others

 - Review may be provided in a separate notice
 - Review may be delayed

6. AUCTION RULES

WHAT IS A BID IN ROUND 1?

A bid is a number of tranches for each EDC

PSE&G	JCP&L	ACE	RECO
10	4	2	1

The bidder is ready to supply 10 tranches for PSE&G, 4 tranches for JCP&L, 2 tranches for ACE and 1 for RECO at the round 1 prices

Two rules:

- The total number of tranches bid on all EDCs **cannot exceed bidder's initial eligibility**
- **BGS-RSCP Auction only:** The number of tranches bid on an EDC **cannot exceed the EDC load cap**

SAMPLE ROUND REPORTS

BGS-CIEP Report: Round 1	
Total Excess Supply: 81-85	
EDC	Round 2 Price (\$/MW-day)
PSE&G	885.00
JCP&L	873.00
ACE	839.05
RECO	843.90

Bidder sees:

- Range of total excess supply
 - Total excess supply is the sum of excess supply for all EDCs
 - Range provided includes actual total excess supply
 - Range of 5 numbers at start of Auction
- The round 2 prices
- The bidder's own bid

Bidder has no information about others' bids, identities or eligibilities

PRICES “TICK DOWN”

- The price for an EDC ticks down in the next round when, and only when, there are more tranches bid than the tranche target at the current round price for that EDC
- At the start of the Auction, prices tick down by more than at the end
- There are three distinct regimes
 - **Start (regime 1):** 0.50% to 5.00%
 - **Middle (regime 2):** 0.375% to 3.75%
 - **End (regime 3):** 0.250% to 2.50%
- **Formulas** in the Auction Rules finalized upon registration of bidders

CHANGES IN ROUND 2 BIDDING (FROM ROUND 1)

- A bidder can keep the number of tranches bid for each EDC the same as in round 1
- A bidder may be able to:
 - **Withdraw:** Remove some tranches from the Auction
 - **Switch:** Reduce tranches bid on one EDC and increase tranches bid on another EDC
 - **Withdraw and switch**
- A bidder can only request to reduce the number of tranches bid for an EDC (either by withdrawing or switching from the EDC) **if the price for the EDC has ticked down**

WHAT ARE THE RULES IN ROUND 2?

- The **total number of tranches bid** on all EDCs combined cannot exceed **eligibility** in round 2 (number of tranches bid in round 1)
- **BGS-RSCP Auction only:** The number of tranches bid **on any one EDC** cannot exceed **the load cap** for that EDC

BIDDERS MUST NAME AN EXIT PRICE WHEN WITHDRAWING A TRANCHE

BGS-RSCP Auction Example				
EDC	PSE&G	JCP&L	ACE	RECO
Price Round 1	18.000	18.000	18.000	18.000
Bid Round 1	10	1	3	1
Price Round 2	17.100	17.460	17.730	18.000
Bid Round 2	10	1	2	1
<i>Exit Price</i>			17.850	

- A bidder must enter an **exit price** (a final and best offer)
 - Above current going price
 - Below or equal to previous going price

A BIDDER COULD NEED TO PROVIDE ADDITIONAL INFORMATION WHEN SWITCHING

BGS-CIEP Auction Example				
EDC	PSE&G	JCP&L	ACE	RECO
Price Round 1	885.00	900.00	865.00	870.00
Bid Round 1	2	7	0	1
Price Round 2	885.00	873.00	839.05	843.90
Bid Round 2	6	1	2	1
<i>Switching Priority</i>	1		2	

- When a bidder reduces the tranches bid on one or more EDCs and increases the number of tranches bid on **more than one** EDC, the bidder will be asked for a switching priority
- This is used when only some of the reductions can be granted

A BIDDER COULD NEED TO PROVIDE ADDITIONAL INFORMATION WHEN SWITCHING AND WITHDRAWING

BGS-CIEP Auction Example				
EDC	PSE&G	JCP&L	ACE	RECO
Price Round 1	885.00	900.00	865.00	870.00
Bid Round 1	2	5	1	1
Price Round 2	885.00	873.00	839.05	843.90
Bid Round 2	4	2	2	0
Exit		✓		
Exit Price		880.00		

- When decreasing the number of tranches bid from more than one EDC **and** switching, the bidder will be asked to designate which tranche is being withdrawn
- The bidder names an exit price for the withdrawn tranche

CHANGES IN ROUND 2 REPORTING (FROM ROUND 1)

- A bidder can **request** a switch or a withdrawal – but it **may not always be granted**
 - Auction Manager may retain tranches from exits or switches if necessary to fill the tranche targets
 - Auction Manager fills tranche target first with tranches bid at the going price, then by retaining exits, then by denying switches (if necessary)
- When **getting information about own bid**, bidder will get information regarding:
 - Any tranches requested to be withdrawn that were retained (retained at the named exit price)
 - Any tranches requested to be switched that were denied (retained at the last price at which tranches were freely bid)

HOW DOES THE AUCTION END?

- Rules in rounds 3, 4, etc. are the same as the rules in round 2
- Auction closes:
 - When **total excess supply equals zero** and prices no longer tick down
- Bidding on **all EDCs** will stop at the **same time** and all bidders that win tranches for an EDC **get the same price**

A thin, dark blue vertical line is positioned to the left of the section header.

7. BIDDING PROCEDURES

BIDS ARE SUBMITTED ONLINE

- Bidding is done online
- Bids are submitted and round results received through the **auction software**
- Bidders log in to the auction software using a Login ID and password provided by the Auction Manager to the Bidder Team
- Bidders have **TWO** opportunities to practice submitting bids in the auction software in either or both of the Trial Auctions for Registered Bidders (1st to be held on **January 29th** and the 2nd to be held **February 3rd**)
- **System requirements** are minimal:
 - A standard PC-compatible computer running Windows 10 or later or Mac 10.7 or later
 - An Internet connection and a recommended web browser

AUCTION SCHEDULE

- The BGS-CIEP Auction will begin on **Friday, February 6, 2026**
- The BGS-RSCP Auction will begin on **Monday, February 9, 2026**
- Tentative auction schedule provided to bidders in the January webcast
- Actual schedule provided the day before the Auction

PAUSES

- Each bidder has **2 extensions** available to extend the bidding phase by 15 minutes
 - Typically for technical problems
 - The **bidding phase in round 1 is automatically extended** for the convenience of bidders
 - If a bidder requests an extension in round 1, or does not submit a bid during the bidding phase, an extension will be charged to the bidder that will run concurrently with the automatic extension
- Each bidder has 1 **recess request** to extend the reporting phase by no less than 20 minutes
 - Extra time to consider bid
 - Available only later in the Auction (after round 10 and after the total excess supply in previous round falls below a given threshold)
- The Auction Manager can call a **time-out** (for example, in case of general technical difficulty)
